"Open Science and Research Data Management Course"

Nikola Vasiljevic

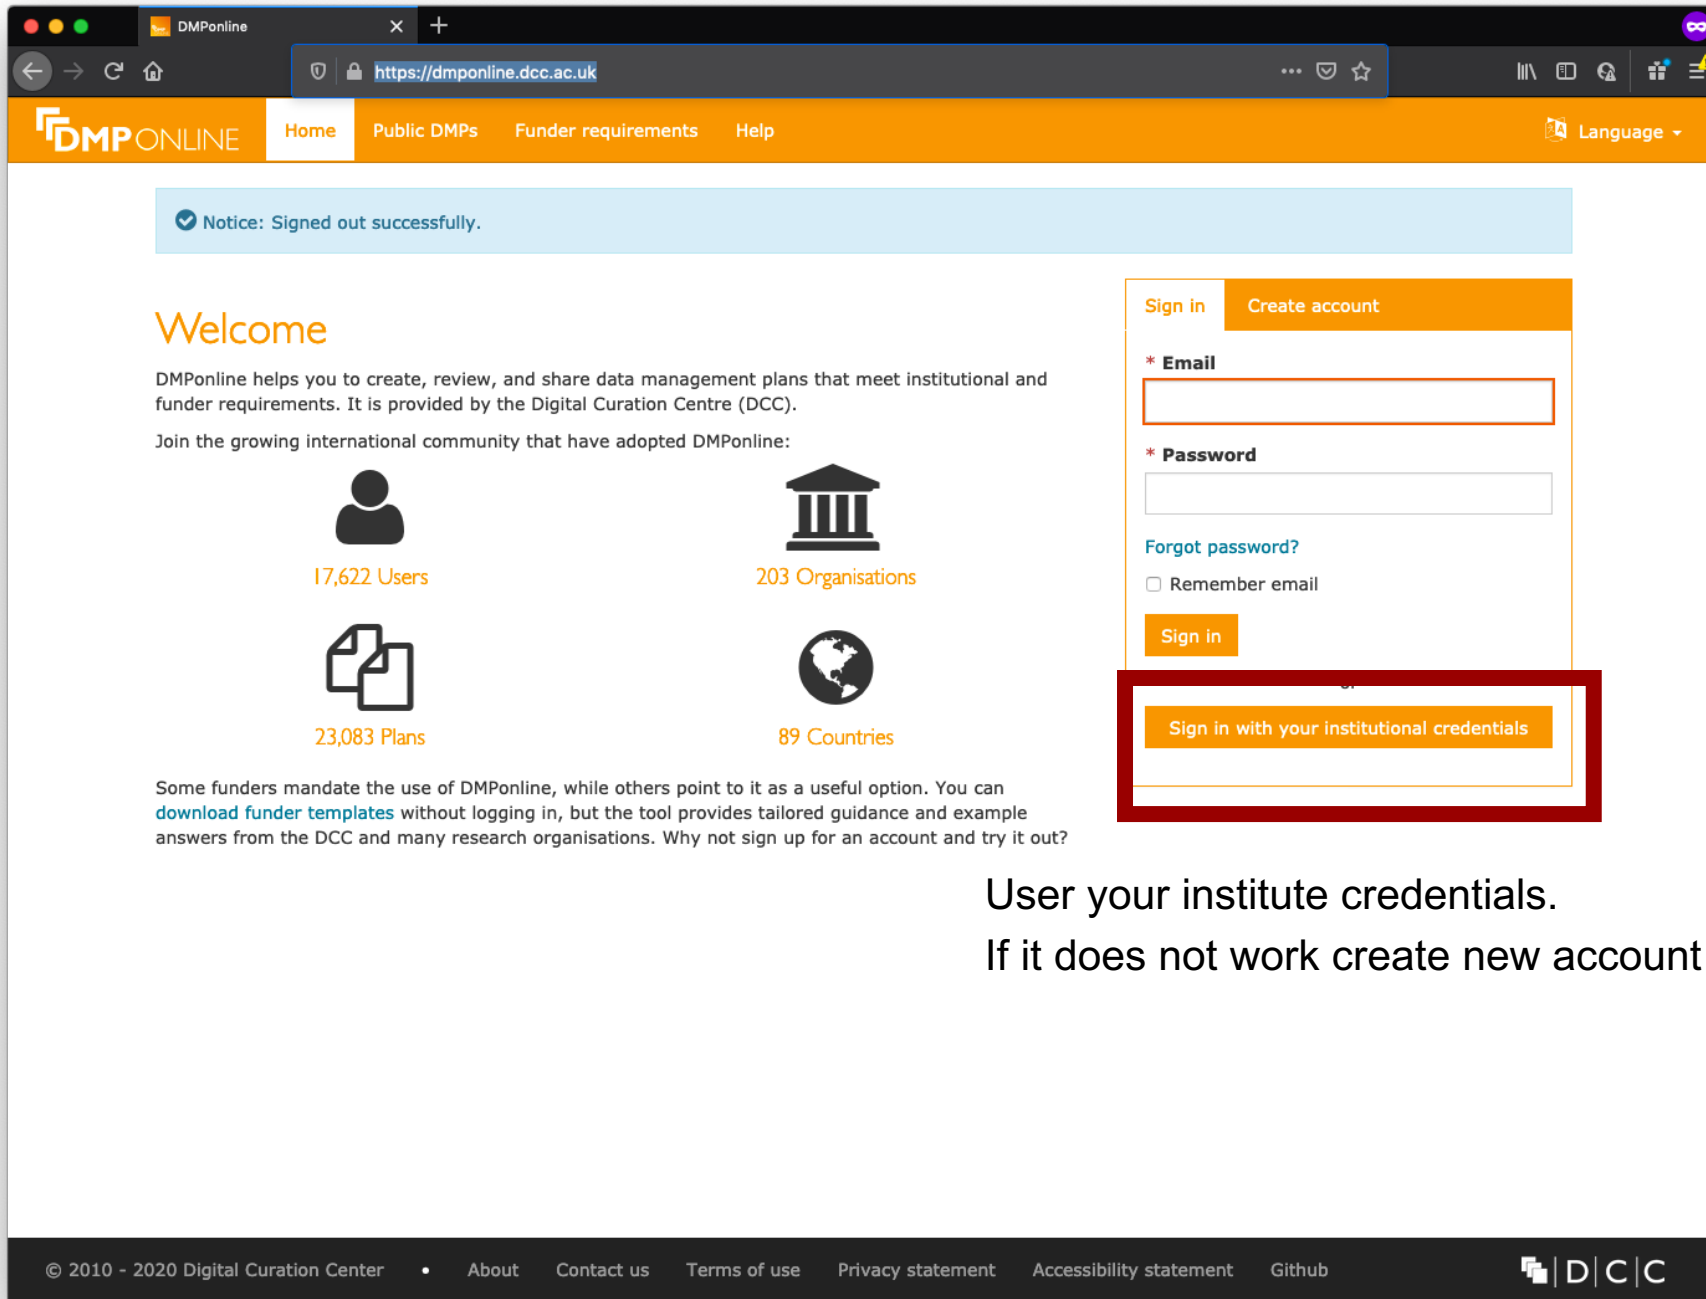

Seminar 5

What are data management plans, and why do they matter?

What is Data Management Plan?

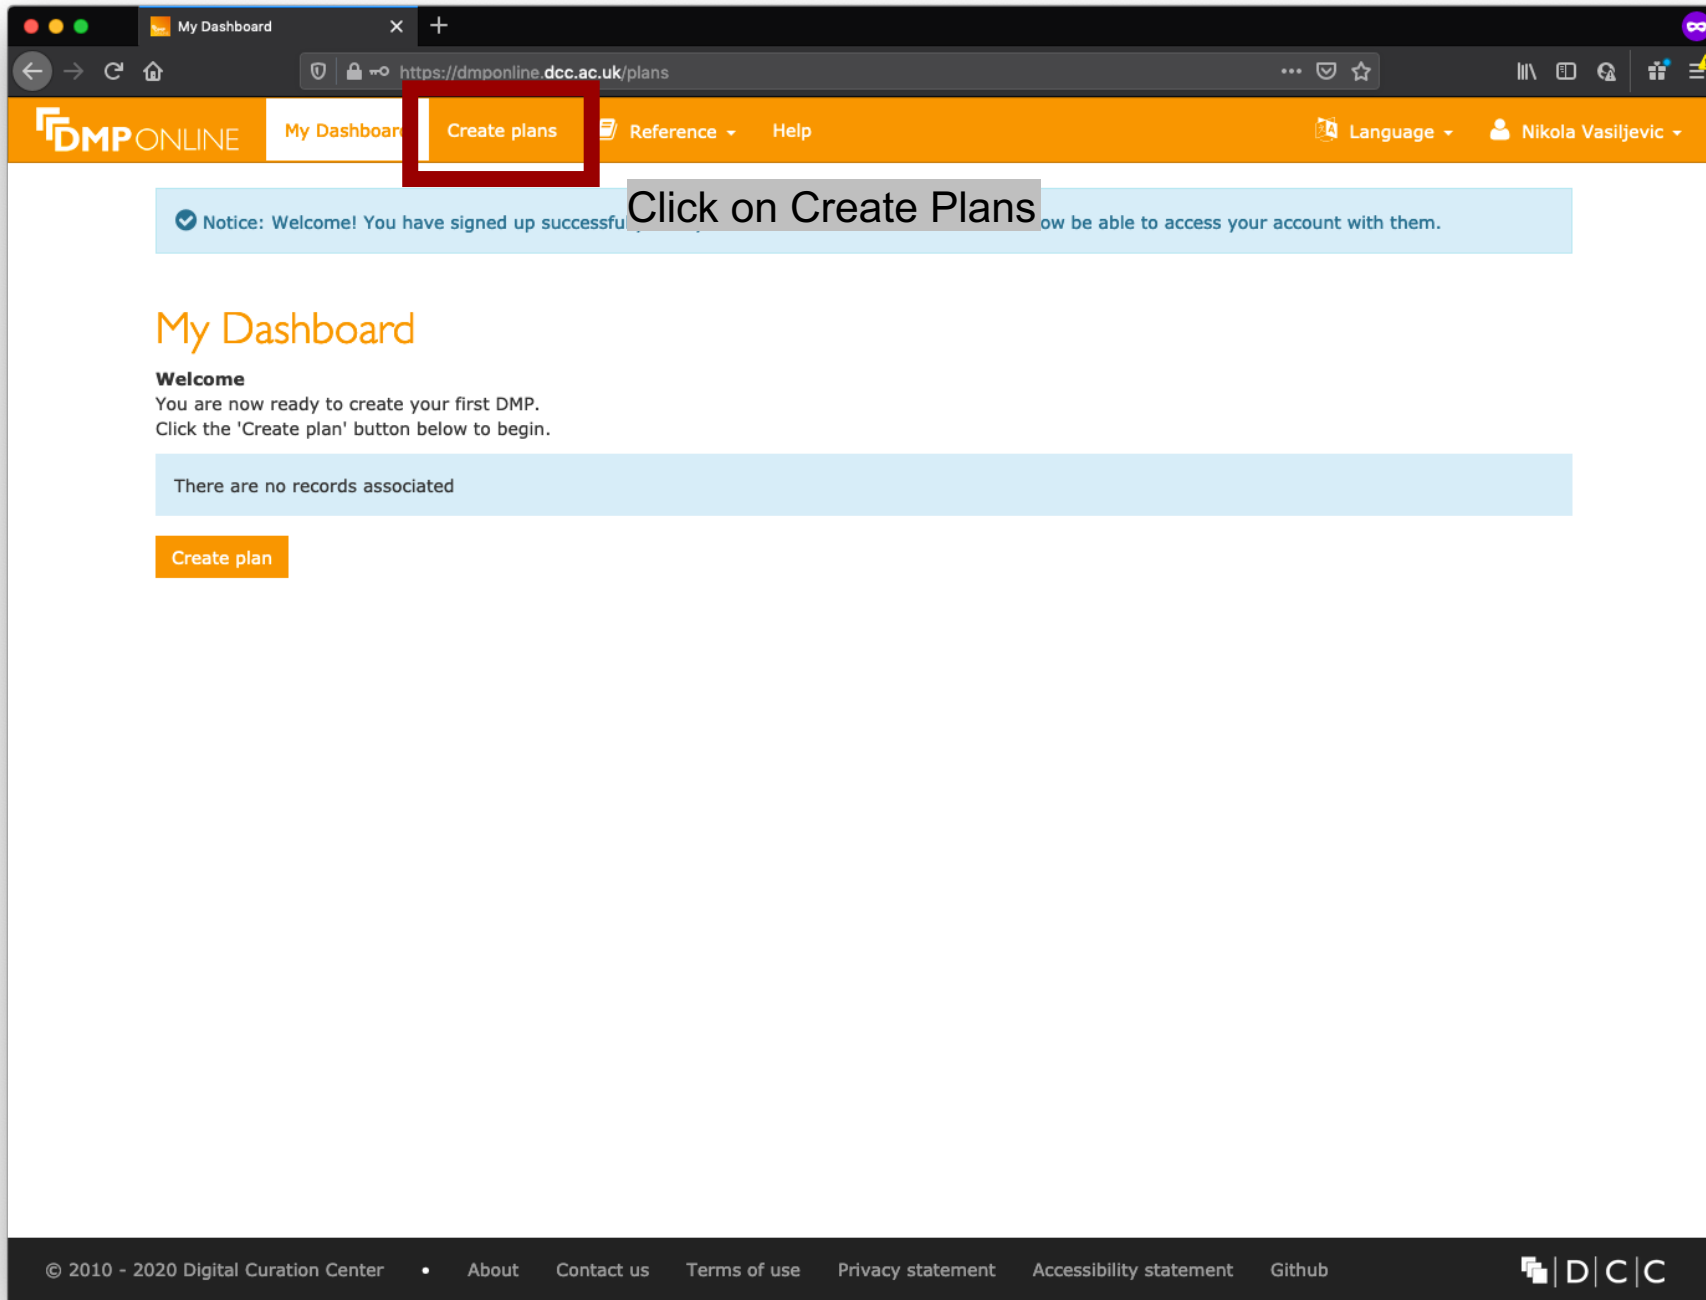

- A data management plan or DMP is a formal document that outlines how data are to be handled both during a research project, and after the project is completed.
- The goal of a data management plan is to consider the many aspects of:
 - data management
 - metadata generation
 - data preservation
 - and analysis before the project begins
- This ensures that data are well-managed in the present, and prepared for preservation in the future
- Under DATA we consider both **data per-se as well code!**

We go to <https://dmponline.dcc.ac.uk/>

The screenshot shows the DMPonline website interface. At the top, there is a navigation bar with the DMPonline logo and links for Home, Public DMPs, Funder requirements, and Help. A language dropdown menu is also present. Below the navigation bar, a light blue notification bar states "Notice: Signed out successfully." The main content area features a "Welcome" section with a brief description of the platform and its purpose. To the right, there is a login and registration form. The form has two tabs: "Sign in" and "Create account". Under the "Sign in" tab, there are input fields for "Email" and "Password", a "Forgot password?" link, and a "Remember email" checkbox. Below these fields is a "Sign in" button. A red rectangular box highlights a button labeled "Sign in with your institutional credentials" located below the standard login fields. The footer of the website contains copyright information and links to various policy documents and the Digital Curation Center (DCC) logo.

User your institute credentials.
If it does not work create new account

Create a new plan

Before you get started, we need some information about your research project to set you up with the best DMP template for your needs.

* What research project are you planning?

Write name of your PhD project

☐ mock project for testing, practice, or educational purposes

Write name of your institute/uni if it does not exist

Click on 'No research organization...'

☐ No research organisation associated with this plan or my research organisation is not listed

* Select the primary research organisation

Other

* Select the primary funding organisation

Begin typing to see a filtered list

Create plan Cancel

- or -

☐ No funder associated with this plan or my funder is not listed

Select this option because we want a simple DMP template instead of H200

* Project title

State name of your project

☐ mock project for testing, practice, or educational purposes

Select Guidance

To help you write your plan, DMPonline can show you guidance from a variety of organisations.

Funder

State funder of your project, which is H2020 ITN

Grant number

e.g. 123456

State grant number, which is 858358

Project abstract

Save

Short abstract describing your project. If you have filled in Google Form questionnaire you should already have a short description of your project.

Principal Investigator

Make me Editor

DMP assingment

- Write your DMP by end of Week 49 review it with your supervisors
- Send me an email when you are done so I can review it and give you feedbacks in DMPOnline by end of Week 51
- You will update your DMP and present it in the final workshop (Week 52)
- Afterwards, you will publish your DMP and presentation you gave on Zenodo
- Also, you could submit your DMP to your uni library (some of them actually count DMPs as KPIs for your research group, DTU does)
